Education

- University of Twente* *Feb 2018 - Aug 2020*
MSc Systems & Control (Specialisation: Biomechatronics)
Systems and Control is a multidisciplinary field focusing on the control of all kinds of technical systems. It combines knowledge of the mathematics of Systems and Control with specific knowledge of its applications (e.g. mechatronic systems).
- University of Twente* *Aug 2013 - Feb 2018*
BSc Creative Technology
Creative Technology is a study that combines multiple disciplines to allow for the creation of a complete product. Allowing the student to be familiar with the software and hardware as well as the design of the product.

Experience

- University of Salford* *Sep 2019 - Dec 2019*
Associate Researcher - Internship
During this internship I created a proof of concept for a portable sensor to replace a Motion Capture system based upon a GoPro video camera.
- Study trip ExplorAsia* *May 2017 - Oct 2018*
Chairman Case Coordination Committee
The Case Coordination Committee was tasked with acquiring cases at companies, divide them among the participants and to make sure both the participants and the company are satisfied in order to finance the study trip.
- University of Twente* *Sep 2017 - July 2018*
Student Assistant
Mathematics, Electronics and Control engineering.
- P.K.v.V. Fact* *Sep 2016 - Sep 2017*
Vice-chairman
As the vice-chairman I was responsible for the improvements of the board on the topics of effectiveness and communication as well as for the communication towards the university.
- AEGEE-Enschede* *Sep 2015 - Sep 2016*
Full-time Internal Affairs
As Internal Affairs at AEGEE-Enschede, I was responsible for the members of the association. Which means I had to make sure the members joined committees, participated in activities and enjoyed coming to our association.
- Albert Heijn Bennekom* *May 2011 - May 2014*
General warehouse and inventory management.
